CAMBRIDGESHIRE MATTERS NEWSLETTER DECEMBER: 15/12/2021 County Council had reduced its gully clearing programme, but since December, this was recognised as an issue and the council has been making great strides in catching up. Between April and September this year 28% more gullies have been cleared (26,129) than in April to Sept 2020 (20,399). CCC are promoting information from the County Council where people can report flooding, and ditch blocking and the Environment Agency's Flood line (0345 988 1188) a 24/7 service that allows residents to check current flood alerts or warnings in force, register or update their flood warning service details and provide practical advice.

BEDFORD BOROUGH COUNCIL: 15/12/2021 reply to HWPC in response to Eaton Banks consultation question.

16/12/2021 Gill Cowie reply "there will be a formal opportunity to comment on the site during the next consultation stage which is currently programmed for late Spring 2022. Nevertheless, some residents have told us that they are unhappy that the local plan is being progressed without the benefit of their comments on the site, given that it was submitted so late in the process. Understanding those concerns and trying to be flexible, we have said that if people would like to send their comments to us informally – in other words outside of any formal consultation period – then we will read them whilst we are carrying out our assessment work. That work is happening just now so the earlier we have those comments the better. Should any residents in Hail Weston or surrounding areas wish to send informal comments to us about the Eaton Bank site, they should do so by sending an email to planning.policy@bedford.gov.uk Please note that any comments sent to us now that remain relevant at the consultation stage next spring, will need to be re-submitted during the consultation period; any comments made now will not be logged as responses to that later consultation.

AIRSPACE CHANGE PROPOSAL RELATING TO LONDON LUTON AIRPORT'S: 24/11/2021 arrival routes approved. The UK Civil Aviation Authority (CAA) has today approved an airspace change including changes relating to London Luton Airport's Standard Instrument Arrivals (STARs). This airspace change is intended to reduce the complexity of the airspace and the workload on air traffic controllers, which in turn, is designed to mitigate against the potential of delays for both London Luton Airport and London Stansted arrivals and allow a high level of safety in air traffic services to be maintained. The proposal, known as "Swanwick Airspace Improvement Programme - Airspace Deployment 6" (AD6), was submitted to the CAA by London Luton Airport and NATS (the relevant air traffic service provider). 'Option One' (minimal changes from today's flight paths below 5,000ft with greater dispersion of flights above 5,000ft); the location and orientation of the new holding area near the A1-A14 junction was adjusted; and the lowest standard altitude of the hold was raised by 1,000ft, reducing potential noise impacts on the residents of St Neots and Huntingdon. The revised airspace will become effective on 24 February 2022

SMOOTH CREATIVE: The instructions from Wix and iDash have resulted in the new site being at www.hailweston.org.uk rather than just hailweston.org.uk: recommend a redirect from "non-www.", to the new "www." URL is necessary to avoid confusion.

Consider various redirects needed to move visitors from any URLs they've saved from the old site to the new equivalents of the new site. Retired site to localgov.xsmooth.co.uk where I will clean it of all Hail Weston content and use as a demo for other town and parish councils.

CELEBRATING HER MAJESTY, THE QUEEN'S PLATINUM JUBILEE 16/12/2021 An extended bank holiday, from Thursday 2nd to Sunday 5th June, will provide an opportunity for communities and people to come together to celebrate the historic milestone. The four days of celebrations will include public events and community activities, as well as national moments of reflection on The Jubilee
